SUBJECT:

REMARKS:

I have asked Herb Hetu to put together an unclassified CIA presentation package which we can provide at the Agency for various members of select groups of the public, on a weekly or bi-weekly basis. The concept is to have a package built around the theme, "What Intelligence Does for the Country." It would consist of perhaps:

- a) A brief audio/visual in the auditorium
- b) A "Museum" displaying historical articles of the trade
- c) A photointerpreting exhibit and
- d) A cartographic exhibit.

STAT  will be working with Herb Hetu on this project, and I would appreciate any thoughts or recommendations you may have on how to proceed.

I would like to open for business on July 4th.
